

Knowing the students Questionnaire

Name (please underline the name you'd like me to use):

University Email address: _____ @iastate.edu

Academic Background:

Current program: Masters/PhD in _____

Focus: What are your research interests?

Motivation: What motivated you to take this course apart from the degree requirements?

List the specific degree requirements you may need this course for, as well as any specific content issue you hope to get out of this class.

Linguistics background: What background in linguistic analysis do you have (general, coursework, topics of term papers you've written, etc.)?

Programming background: What background in computer science and programming do you have (general, coursework, etc.)?

Course-specific background: In case you have already taken taken courses (etc.) on topics related to programming, please list them here:

Language background: What languages are you fluent in? Will you be interested in doing some project/term paper considering one of the course topics and applying it to a new language?

Course Expectation What do you expect to take away from the course?

Where do you think you can apply what you learnt here as an applied linguist?

Optional Question: How many courses are you enrolled in this semester (including this course)?
